Approved by Council at its May 2015 AGM

HEALTH AND SAFETY AT WORK etc ACT 1974

HEALTH AND SAFETY POLICY OF

GORSLAS COMMUNITY COUNCIL

1. GENERAL STATEMENT OF POLICY

Gorslas Community Council is a small community council who directly employ :-

1 part time clerk

1 part time bus shelter cleaner (1-2 Hours per week)

1 part time public convenience caretaker and gate keeper

It also contracts work in from various contracting companies.

1.1 Our policy is to provide and maintain safe and healthy working conditions, equipment and systems of work for all our employees, and to provide such information, instruction and training as they need for this purpose.

1.2 The allocation of duties for safety matters and the particular arrangements which we will make to implement the policy are set out below.

1.3 The policy will be kept up to date, particularly as the Council's activities change in nature and size. To ensure this, the policy and the way in which it has operated will be reviewed every year by the policy and finance sub Committee of the Council. Although risk assessment is a continuing process, it shall form part of the Committee's annual review.

2. RESPONSIBILITIES

2.1 Overall and final responsibility for health and safety in the Council and for compliance with the Health and Safety at Work etc. Act and Regulations* made under the Act and the Occupiers Liability Act is that of Gorslas Community Council

The following are responsible for safety in particular areas:

Employee	Area
Clerk	Home office
The Public convenience Caretaker/gate keeper	Gorslas toilets and park
Bus shelter cleaner	Bus shelter

2.2 All employees have the responsibility to co-operate with the council / clerk to achieve a healthy and safe workplace and to take reasonable care of themselves and others. This is extremely important in respect to bus shelter cleaners and public convenience cleaner /gate keeper operatives as they work a small number of hours per week during non standard times and during times of the day to suite their own circumstances. Supervision is therefore not practical and employees should take additional care of themselves and others.

2.3 Whenever an employee, notices a health or safety problem or potential problem which they are not able to put right, they must tell the clerk as soon as possible They must also inform the clerk of any replacement or new health and safety protective clothing /gloves etc that they require.

2.4 Consultation between the council and employees is provided by discussion with the Clerk. Contact No 01267 275562.

2.5 The Accident Record Book is kept by the clerk. In which a record will be kept of all reported accidents to employees and also potential accident risks reported .

3. FIRE SAFETY

3.1 Smoke alarms must be fitted at the clerks home office.

3.2 Exits shall be kept free from obstructions.

4. TRAINING

4.1 When appropriate the council will employ competent persons to provide training or send employees for appropriate training .

5. GENERAL ADVICE

5.1 General advice to all employees is attached as Annex 5.

6. SPECIFIC POLICIES

6.1 Policies for particular premises and activities are attached as Annexes as follows:-

1. Offices.
2. Grounds Maintenance.
3. Caretaking and Cleaning.
4. Lifting and Handling.

7. EMPLOYMENT OF CONTRACTORS

7.1 The notes to be given to contractors are attached at Annex 6.

8. REPORTING AND RECORDING ACCIDENTS

8.1 Accidents shall be reported to the Clerk who will record them in the Accidents Record Book.

9. SMOKING

9.1 Smoking is not allowed whilst at work

1. HEATING, LIGHTING AND VENTILATION

- a) Temperature must reach a minimum of 60.8 degrees F after the first hour of working time and be maintained between 60.8 degrees F and 68 degrees F throughout the working day.
- b) Free standing heaters must not be used .
- c) Office lighting. Desks should be placed to gain the maximum amount of light. Free-standing desk lights should be avoided or placed so as to minimise the danger of trailing electrical leads.

2. ELECTRICAL EQUIPMENT

- a) Mains must not be overloaded. It is important that the correct socket outlet and plug top face (where these are available) is used for each item of electrical equipment.
- b) 13 amp plugs can be used for appliances with a loading capacity maximum of 13 amps. Plus fuses must be fitted to suit current load of the equipment being used, e.g. desk lamp, calculator, typewriter: 3 amp fuse; 2-bar heater, kettle: 13 amp fuse. Fuses are available with ratings of 3, 5, 7, 10 and 13 amps. The current load is normally shown on the item of equipment. When in doubt, do not guess, seek qualified advice.
- c) Office area should be switched off when not in use, and plug tops removed from sockets overnight.
- d) Leads from points for various desk uses should not present a hazard by trailing across areas of access. Extension leads are for temporary use only and should not exceed 10 feet in length.
- e) Defective equipment must never be used. Staff should not attempt to effect repairs to electrical equipment, unless competent to do so.

3. FURNITURE, FITTINGS AND EQUIPMENT

- a) All heavy equipment and storage units should preferably be placed against the wall across several floor joists.
- b) Heavy home office equipment and furniture must not be moved by individuals.
- c) Home Office equipment whether manually or electrically operated, must not be used by unauthorised, untrained personnel.
- d) Filing cabinets should always have sufficient weight in the bottom drawer to prevent the cabinet from tipping when a full top drawer is opened. Filing cabinet and desk drawers must always be closed immediately after use. Drawer filing cabinets should be inspected at least every six months to ensure correct loading and smoothness of operation, with particular regard to the effectiveness of the drawer stops. Damaged or defective cabinets must not be used.

- e) High shelves should only be reached through the use of steps provided for that purpose. It is dangerous to stand on desks and chairs, particularly those fitted with castors and this should be avoided at all times.

4. FIRE PRECAUTIONS

- a) Home office area ,exit corridors, landings and stair cases must be kept clear at all times.
- b) Flammable materials must not be stored, even for a temporary period, in the offices area .
- c) Home office area should have smoke alarms fitted

1. Only authorised members of staff, who have received training and instruction in the operation of machinery and equipment may do so.
2. All dangerous moving parts of machinery must be guarded. Guards must not be removed except for the purpose of repair and maintenance. All machinery must comply with statutory regulations for guarding and use.
3. The engines of any motorised equipment must be stopped before any inspection or adjustment is carried out. In the case of electrically operated machines the plug lead must be disconnected.
4. Children must not be allowed to play in an area where machinery is in use. Machinery must not be left unattended where children (or others) may interfere with them.
5. Stones and similar objects must be cleared from the path of equipment to prevent such objects being projected from machinery.
6. Fuel tanks must only be filled in the open, with the engine stopped. No risk of naked flames, or smoking is allowed in the vicinity of a fuel tank or storage can.
7. Fuel may only be stored in a safety can of a type approved, and in a store designated by the Fire Officer.
8. The manufacturers instructions regarding the safe use of chemicals must be adhered to.
9. Appropriate protective clothing such as gloves and overalls, face masks and boots must be used when operating with machinery and chemicals including herbicides and pesticides.
10. Ladders and stepladders must be in good condition and free from defects and securely positioned at all times when in use.
11. Pathways on Council owned premises shall be inspected annually.

1. It is essential that care is exercised to follow all labelled instructions on containers and packages. Products should be stored away from extreme low temperatures, heat sources and naked lights, particularly those products containing hydrocarbon and other flammable solvents.
2. Appropriate protective clothing, such as gloves and overalls must be worn when handling corrosive substances and they should be in good condition.
3. Care must be taken to avoid ingestion, inhalation and skin contact of all chemical substances. Spillage must be cleaned up immediately while observing all precautions.
4. Consideration must be given to the possibility of hazardous by-products that may arise from reaction between various products, or from products exposed to heat or fire. Particularly in the case of bleach which will produce chlorine gas if mixed with acidic cleansers (e.g. Harpic) or other acidic substances.
5. Step-ladders which are used to gain access to heights must be in good condition and free from defects.
6. All electrical cleaning equipment must have been wired up by a competent person. Any deterioration in electrical connections or wiring should be reported immediately.
7. Care must be taken to ensure that members of the public are not given access to the bus shelter, toilet or any other premises whilst cleaning is on going and whilst the floor is drying.
8. YOU SHOULD REPORT:
 - a) Structural faults which appear dangerous.
 - b) Floor coverings, etc. which cause a tripping hazard.
 - c) Faulty gas, electric, paraffin fixtures, fittings and equipment.
 - d) All accidents, however small, should be reported.

YOU SHOULD NOT:

- e) Attempt to repair any utility, fittings or equipment, unless competent to do so.
- f) Attempt to move obviously heavy furniture alone.

YOU SHOULD:

- g) In the event of your having to stand on something to reach windows, etc. do ensure the object on which you will stand is solid and reliable.
- h) Dispose of aerosol cans in the recommended way.
- i) Dispose of soiled materials in sealed bags.

1. The 1992 Regulations apply to lifting, pushing, pulling, carrying and moving by hand or by bodily force. More work injuries are caused through "handling goods" than any other single action.

Manual lifting is included in this and an incorrect technique can cause:

Hernia (or rupture), torn back muscles, "slipped disc", cuts, bruises, crush injuries to fingers, hands and forearms, crush injuries to toes, cuts and bruises to the legs and feet.

2. The following basic rules are produced to help reduce these accidents:

Never attempt to lift anything beyond your capacity. If in doubt get a second person or others to help.

If mechanical aids are provided, use them.

If an object is to be lifted manually:-

- a) Bend the knees and crouch to the object.
- b) Get a firm grip using the whole hand and not the finger tips.
- c) Keep the back straight.
- d) Tuck the chin in.
- e) Position the feet so that one is behind the other alongside the object, pointing in the direction of movement after lifting.
- f) Push off with the rear foot. Straighten the legs and raising the object, move off in required direction in one smooth movement.
- g) Avoid pinching fingers when releasing object.
- h) When lifting is done by two or more persons one should be appointed leader to ensure movements are co-ordinated.
- i) Protect your toes with safety footwear.
- j) Wear protective gloves when handling objects with sharp or jagged edges.

1. TIDINESS

Keep floors, passages etc. clear of stores, packages and litter.

Put waste paper in the bin. Do not throw broken glass, razor blades or other dangerous items loose in the waste bin. Dispose of these with care and ask for advice from your Supervisor if in doubt.

2. FALLS AND COLLISIONS

Walk, do not run. Look where you are going.

Use care in opening doors outward.

Take care on stairs and use the handrail.

Mop up spills of liquid, do not leave it to someone else.

Do not climb on chairs, desks, window sills to reach shelves or to open windows.

Use a step-ladder and window poles etc.

3. FIRE PRECAUTIONS

READ AND UNDERSTAND FIRE PRECAUTION NOTICES

Ensure that you know the lay-out of the fire exits and emergency routes.

Report or remove where possible any obstruction of fire exits and passages.

Keep cloths and towels away from heaters and convectors etc.

Do not stand close to an electric fire, if use permitted, nor stand them near to anything that will bum.

For Gorslas community council to comply with Health and Safety Legislation, all outside contractors employed to do work on Council Premises are to be made aware of the expected requirements related to health and safety. A contractor accepting a contract from the Council shall be deemed to have agreed to comply with the following requirements :-

1. As a contractor, you will supply and ensure that your employees wear and use protective equipment or anything provided in the interest of health, safety or welfare of any of the relevant statutory provisions.
2. You and your employees will ensure that all equipment, plant machinery and apparatus brought onto or used on the Council premises are safe and without risk to health, and are maintained to a standard that will not constitute an offence under the Act or any of the relevant statutory provisions.
3. You and your employees will conform, in all respects, to your legal duties and responsibilities as laid down by the Health and Safety at Work Act 1974, and relevant statutory provisions.
4. The Council will retain the right to stop any operation, plant or equipment, or the action of any of your employees if it is considered that there is a hazard to the safety and health of employees or others. The Council will not accept any responsibility for any increased costs arising out of such action.
5. In the event of the Council taking this action, your site representative will be notified verbally and will have confirmation in writing by the Council's representative to order such a stoppage.
6. The Council will be indemnified by you or your insurers in respect of any claims, costs or expenses arising out of any incidents on Council premises involving you or your employees.
7. The Council may notify an inspector, appointed under the Authority of the Act, of any breach of the Regulations.
